In today's fast-paced world, people face immense personal challenges alongside the constant pressures of a chaotic and often overwhelming environment. Many wrestle with self-doubt, questioning their abilities, if they have what it takes to succeed, and the consequences of making mistakes. This can leave them feeling stuck, as though life is happening to them rather than them being in charge of their own lives.

To inspire and empower individuals to determine their goals, take charge of their lives, and shape their destinies, global business leader, dynamic public speaker, podcaster, and influential visionary Donzel Leggett launched, *Make Your Destiny Happen*, a transformative guide that distills over 30 years of Donzel's personal experience and professional success into a practical, actionable framework for envisioning one's destiny, creating a life plan, taking control, and achieving lasting transformation.

At the heart of the book is Donzel's innovative Destiny Development Delta™ Model, which empowers readers to transform from within and then turn that transformation into real action. Donzel inspires readers through detailed support models, practical processes, and powerful personal anecdotes.

Make Your Destiny Happen is a must-read for anyone eager to create the life and legacy they desire. It offers readers the tools to design a comprehensive life plan while instilling the discipline and accountability needed to take consistent, determined action.
